

AIR TECHNOLOGY FOR PRODUCTIVE AQUACULTURE

AQUACULTURE SOLUTIONS

Aquaculture companies – and aquariums – around the world have been using ESAM to improve aeration performance and productivity since 1984.

When reliability is important, and constant operation is required, the choice is ESAM air technology.

AQUACULTURE APPLICATIONS

- AERATION
- FISH FEEDING
- AQUARIUMS

AERATION

Blowers for aeration of tanks and pens housing fish, shellfish and crustaceans

FISH FEEDING

Blowers for automatic pneumatic conveyor systems for fish feeding

AQUARIUMS

Blowers to provide vital oxygen, with consistent flow and temperature
