

AIR TECHNOLOGY FOR PREDICTABLE PACKAGING

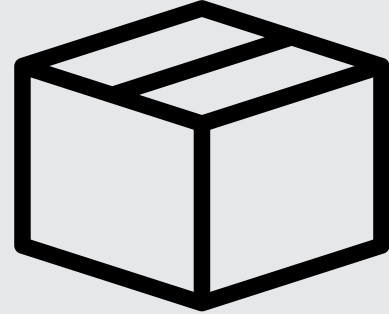

PACKAGING SOLUTIONS

ESAM focuses on just two products: vacuum/blowers and air compressors.

Packaging companies in Europe have been using ESAM to improve performance since 1984.

Where 24/7 reliability is important, the choice is ESAM air technology.

PACKAGING APPLICATIONS

- VACUUM PACKING
- AIR-FILLED PACKAGING
- AIR TABLES
- VACUUM TABLES AND CONVEYORS
- PICK AND PLACE

AIR TABLES

Air supply for friction-free movement of paper, textiles etc

VACUUM TABLES AND CONVEYORS

Suction for secure work-holding in manufacturing and packaging

PICK AND PLACE

Suction for precision product handling

AIR-FILLED PACKAGING

Blowers for air cushions and bubble-wrap

VACUUM PACKING

Suction for everything from food wrapping to large scale air extraction
